

As you are probably aware the gardens are just getting planted with the fall crops, so harvest is a bit away right now. Below is a table of the fall plantings thus far. The planting chart is posted on the website under the garden activity submenu (<https://www.ofegrowers.org/garden-activity.html>). The plantings are planned with regards to when is the best time to plant found in your garden manual on page 55 (https://www.ofegrowers.org/uploads/8/7/5/2/87524472/ofe_5th_grade_science_and_math_gardening_manual_for_2022_-_2023.pdf). Planting too early is just as much a problem as planting late, too hot and the seeds might not even germinate or grow poorly and too late and the plants might not bare fruit/vegetables. As you can see from the chart below we have planted carrots, cabbage, broccoli, collards, beans and tomatoes. Many more to come as the weather becomes more favorable to germination, growth, and with enough time to give us a crop.

I hope you are taking time to look through the website (<http://www.ofegrowers.org/>) to get acquainted with all the things we have done in the past and will do this year. Remember your garden manual is on the website and is a resource / tool that answers questions and presents a picture of gardening that can be quite exciting. So even though you don't take the manual home right now you still can get to it to see what's next. How can I find out what's next???? Well, on your website is a subcategory that lays out the lessons called power point lesson (<https://www.ofegrowers.org/power-point-lessons.html>) and what do you know you can click on a lesson and it will open a narrated lesson that was used last year to explain our next adventure. Try it, I think you will enjoy hearing the lessons as they are a bit more in detail. You can go back and review (if you wish) or jump ahead that's the beauty of having everything on the web.

One more week learning about compost and compost tea and then it's on to planting seeds and young plants (called transplants).

Enjoy and looking forward to getting together next Thursday,
